

Department of Emergency & Critical Care

# If you've just graduated as a DVM and want more, but not sure where to begin?

...a well paid position in a modern multi-specialty animal hospital is a start. Better yet, one that prepares you for the fastest growing segment in the veterinary industry – Emergency and Critical Care.

## Introducing ACCESS Accelerated Training (AAT)

At ACCESS – Palm Beach County, we offer veterinary school graduates a unique program (AAT) that provides specialty level ER and critical care training designed to give them the necessary hands-on experience, knowledge and know-how to become an in-demand, high-level emergency care veterinarian.

### AAT program includes...

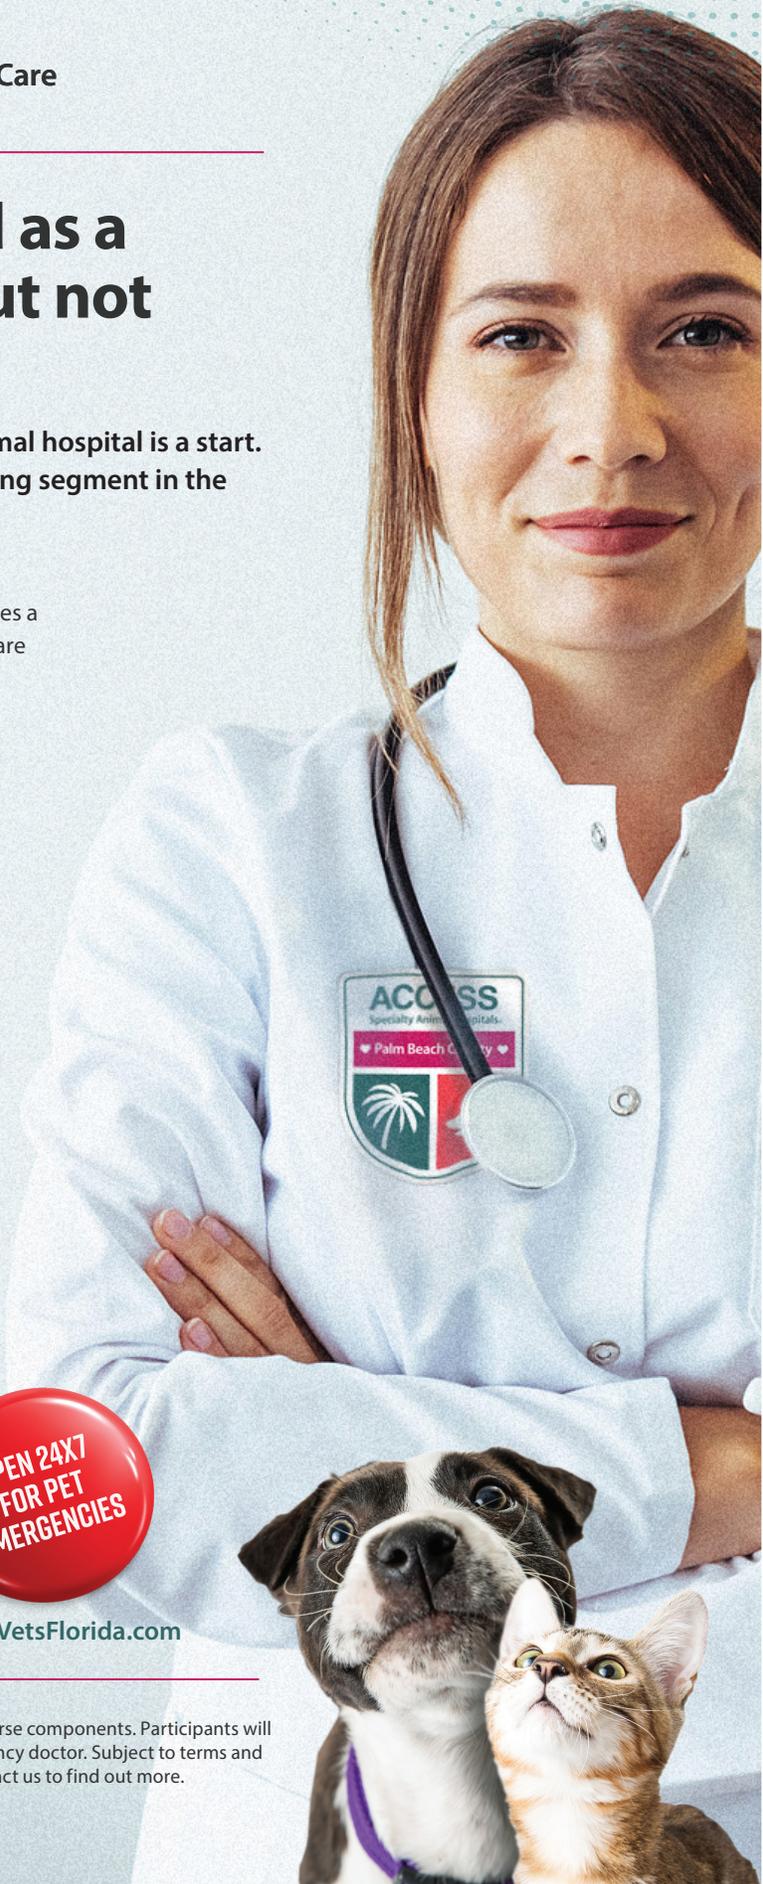

- Fully paid role with industry leading remuneration and benefits.\*
- One year program, advancing over three components.
- Work shifts with criticalists and emergency doctors.
- Participate in interactive seminars, labs and CE lectures.
- Mentoring from board certified specialists and ER veterinarians.

### Discover more...

To find out more about this opportunity and how to participate, please contact, **Marcos Unis**, DVM, MS, DACVS-SA at ACCESS – Palm Beach County, who'll be more than happy to discuss details regarding our Accelerated Training program.

Dr. Unis can be reached at [munis@accessvet.com](mailto:munis@accessvet.com)

## Owned by Hands-on Veterinarians.

Located in Royal Palm Beach, Florida, ACCESS Specialty Animal Hospital – Palm Beach County is owned by hands-on veterinarians who are small on bureaucracy and big on providing excellent veterinary and client care. Which is why they encourage doctors and staff to collaborate freely and launch initiatives without excessive processes or approvals.

## Our services include...

- 24x7 Emergency Care
  - Anesthesiology\*
  - Cardiology\*
  - Critical Care
  - Internal Medicine
  - Neurology
  - Oncology\*
  - Ophthalmology\*
  - Surgery
- \*Services provided by independent group.*

## Serious Medicine. Advanced Technology.

Our medical departments serve a diverse and large pet population, seeing referral and emergency cases that will keep even the most experienced veterinary team on their toes. Besides cross-departmental support, our staff has access to cutting-edge technology in a new, modern facility one would expect from a leading, doctor designed 20,000+ sq. ft. multi-specialty animal hospital.

This includes 5 ORs, a minimally invasive suite (with Arthrex Nuboom system with 4 HD monitors) and an interventional radiology suite. A separate OR for ER surgeries, 64 slice CT, 1.5 Tesla MRI, Fluoroscopy (C-arm), 2 Force Triads, 3 Bovie monopolar/bipolar cattery units, and 2 radiology suites. Separate fully equipped ICU and ER treatment areas, endoscopy, cystoscopy, Arthrex nanoscope, 3 ultrasound machines (2 ultrasound rooms), canine and feline intermediate care wards, I131 ward, separate pharmacy and diagnostic lab, 15 exam rooms, large isolation room, oxygen generators (including emergency power back-up systems.)

## Your success is our success.

As a referral hospital, we are committed to introducing and promoting our doctors to the primary veterinary community as the unique, skilled, and approachable professionals that they are. Not only does this connectivity help establish a steady workflow, but also provides additional depth and experience to your career that is unique in our industry.
